The appropriate sale of our products is something that Americo takes seriously. We have adopted nationwide suitability requirements, which are in line with the NAIC Model Regulation on Suitability in Annuity Transactions. As a producer, it is your responsibility to carefully consider the suitability of each sale you make. If you sell annuities, please review Americo's Producer's Guide for Annuity Suitability (13-246-1) for information on our Suitability and Replacement processes.

- ▶ Qualified (IRA, KEOGH, and SEP)

Maturity Date

Attained age 95 or 10 years, whichever is later. Prior to annuitization, can be changed at the election of the Owner.

Interest Rate Guarantees

The initial interest rate is guaranteed for the entire guarantee period. After the guaranteed period a renewal interest rate will be credited and is subject to change at any time. The renewal interest rate is guaranteed never to be less than 1%.

Minimum Guaranteed Value

Your client is guaranteed never to receive less than 87.5% of the single premium, less any partial surrenders, with daily interest compounded at the minimum guaranteed interest rate. State variations exist.

Rate Lock Period

The rate lock period is 45 days from the date application is received by the Home Office. If money is received within the rate lock period, the guarantee period interest rate will be the rate in effect on the date the application was received.

If the money is received after the rate lock period, the guarantee period interest rate will be the rate in effect on the date premium is received.

Penalty-Free Withdrawals

Once during each contract year, including the first year, up to 10% of the Account Value may be withdrawn, and surrender charges will be waived. The minimum withdrawal is \$500, and the remaining surrender value must be at least \$2,000. A commission chargeback will be assessed on withdrawals made in the first year.

Death Benefit

In all contract years, the death benefit is equal to the full Account Value (prior to annuitization).

Loans (403(b) only)

A loan provision is included by endorsement to the contract when it is issued as part of a 403(b) plan. Subject to restrictions, including those imposed by Internal Revenue Code, the owner may borrow from the Surrender Value subject to a minimum of \$250 and a maximum of 50% of the Account Value not to exceed \$50,000. The loan must be repaid within five years unless its purpose is to acquire the main residence of the owner. Even when the owner borrows against the policy, the entire accumulation account, including the amount borrowed, continues to grow at the declared interest rate. A loan processing charge of \$25 is deducted from the Account Value for each loan taken. Loans may be taken at any time while the contract is in force.

Surrender Charge Percentage of Accumulation Value

Year	1	2	3	4	5	6+
Surrender Charge	9%	8%	7%	6%	5%	0%

State variations may exist. Please contact Agent Services at 800.231.0801 for Surrender Charges in your state.

“Walk-Away” Surrender Charge Period

At the end of the guarantee period, your client has options. They can either surrender the contract with no surrender charge penalty or they may leave their accumulated value to grow tax-deferred. If they choose to leave their money in the annuity, it will continue to grow at the current declared interest rate with no new surrender charges.

Market Value Adjustment (MVA) Feature

Due to fluctuations in the general interest rate environment, this annuity, like many others, contains a Market Value Adjustment (MVA) feature. With an MVA, the surrender value may increase or decrease depending on changes in the U.S. Treasury rates. The adjustment applies to amounts received upon a partial or full surrender, if made during the guarantee period. It also applies if the policy is annuitized during the guarantee period regardless of whether or not the surrender charges are waived under certain provisions. The adjustment does not apply when funds are withdrawn under the 10% penalty-free withdrawal provision. The MVA feature applies in most states.

Annuitization

Annuitant is the measuring life. If the Annuitant should die before payments commence, then the Owner shall become the Annuitant unless otherwise requested by the owner.

Waiver of Surrender Charge Upon Nursing Home or Hospital Confinement Endorsement (Endorsement Series 4139)

After contract issue, if the owner is confined for at least 90 consecutive days in a qualified nursing home or hospital, all surrender charges will be waived. The surrender request plus proof of confinement must be received in the Home Office before discharge or within 30 days after discharge. There is no charge for this endorsement, and it is automatically added to every contract issued. (May not be available in all states.)
